

Why Choose Us?

LexKontract is a Contract Lifecycle Management System (CLM) by Lexcomply. It is a customizable approval workflow engine to automate various stages of a contract starting from draft to review to approval. Maximise your operational and financial performance while reducing business risk with a user-friendly interface, powered by a powerful engine and complete audit trail.

SIMPLIFY

Simplify your Contract Lifecycle. Do more with less.

AUTOMATE

Automate your business process. Increase efficiency, lower cost.

EXPERIENCE

Experience a new way to manage templates. Leverage digitisation.

“
*Supercharge your
business with contract
automation!*

CONTRACT
LIFECYCLE
MANAGEMENT

LexKontact Features

- **Swift Creation** – Create contracts quick for just digitisation or by launching new contract lifecycles.
- **Dynamic Lifecycle** – Create secured contract workflow as you go from draft to review to approval.
- **Digital Signature** – Ability to electronically sign contract documents easily by all the contract parties.
- **Addendums and Renewals** - Create addendums or use cloning of existing contracts for quick renewal.
- **Smart Repository** – Maintain centralised database for quick access, search and powerful analytics.
- **Dashboard Analytics** – Take actions from dashboard directly or analyse with interactive graphs.
- **Template Store** – Build contracts using one or more reusable templates at the click of a button.
- **Advanced Security** - Role based configurable security setup with powerful 2x2 security matrix.
